Osvaldo Aurélio Ribeiro Silva

FullStack Developer

Contact me: +55 (62) 98516-0663 | osvaldo.aurelio@outlook.com | github.com/osvaldoaurelio | linkedin.com/in/osvaldo-aurelio-ribeiro-silva | Anápolis/Goiás/Brazil

Hello,

I am a full-stack developer with a focus on JavaScript, TypeScript, React, and Node. I am experienced in back-end development and proficient in front-end. With over 6 years of experience working in software companies with fast-paced development environments and diverse projects, I am communicative and always eager to learn. I am passionate about sharing knowledge and learning new technologies.

My Skills:

HTML | CSS | Javascript | Typescript | Bootstrap | JQuery | WordPress | React | NextJS | Vite | NodeJS | NestJS | NextJS | ReactNative | WordPress | Linux | Technical Documentation | Swagger | Docker | ExpressJS | RestAPI | Advanced Git | Azure | Jira | Figma | Automated Testing | SQL | NoSQL | JWT | AWS

My Experience:

Pagna Tech – Goiás (Remote)   June 2023 – Present

Fast-paced digital agency environment. I actively participate in all stages of the software development lifecycle, from database design to final project delivery. I am responsible for developing custom and white-label solutions, as well as selecting the most suitable architecture and technologies for each client. My role also involves direct communication with clients, ensuring that the solutions meet their specific needs, always maintaining a high standard of quality in an agile environment. I use GITHUB for version control, Jira, TDD, JavaScript, TypeScript, NodeJS, React Native, NextJS, SQL, APIs, and AWS.

TIVIT & Lambda3 – São Paulo (Remote)   May 2021 – April 2023

Worked on various projects with national and international clients. Multidisciplinary, self-managed agile teams. Development focused on quality and high standards of best practices, maintaining test coverage above 80%. Software testing, GIT, Azure, Jira. Utilized React Native, .NET Framework, Next.js, and Nest.js. Knowledge of financial/banking business rules (Banco Master), HR (RunaRH Mexico), and healthcare (SaúdeID Fleury Group).

ViaSoft – Paraná (Remote)   December 2020 – May 2021

Continuous development of the Nela product, an HR management ERP. Worked with EmberJS, Sails.JS, KnexJS, MySQL, Bootstrap, Bitbucket, Jira, and Confluence. Implemented client-requested requirements and feature customization. Full-stack role. Consistent delivery of customized changes to clients, achieving an overall satisfaction rate of 92.8% (via MoviDesk); Involved in the expansion from 1267 monthly users to over 500,000 users. Scaling the software and refactoring existing code.

PRTE Tecnologias e Soluções – Porangatu/Goiás   February 2018 – December 2020

Fast-growing environment with various projects and clients. Ruby On Rails, API, service integration, database creation and management. Agile methodology and self-managed teams with high autonomy. Development of Plugins for CMS WordPress, CSS, Bootstrap, JavaScript, EcmaScript6, JQuery, React-Native, Docker.

Education:

Bachelor of Software Engineering – Universidade Evangélica de Goiás 2023 – Present.
MBA in Information Systems Projects – Faculdade Digital Descomplica 2020 – 2021.
Bachelor of Information Systems – Universidade Estadual de Goiás 2015 – 2018.

Languages:

English – Intermediate
Spanish – Advanced

I am available to discuss my profile and opportunities. Thank you!
